SUMMARY

Motivated IoT Cyber security and Blockchain Technology student with basic C++ and python programming and practical experience managing IoT systems. Proficient in collaboration and time management, demonstrating consistent success in team-based projects. Committed to applying technical skills and innovative approaches to contribute meaningfully to cutting-edge cyber security initiatives while pursuing continuous learning and professional development.

INTERESTS

- Security Analyst Learning KQL from the platform called KC7, regarding cyber security. Learning basics on security blue team.
- Aviation club Member Member of the Aviation Club, contributed to aero modelling, flying, and simulation.
- NCC Air Wing Member Active member of NCC Air Wing, demonstrating discipline, teamwork, and leadership skills

PROJECTS

Some Project

Library Management System for handling the data efficiently:

Designed and developed a web-based platform for managing borrow and return details of books. Implemented a SQL database to handle In-out history details, registrations, and user data efficiently.

Built a responsive interface using HTML, CSS, and Python for smooth library management and user interaction.

Hand Gesture Recognition:

ML based hand gesture recognition system. Designed a platform for recognition of hand gestures using ML Game based idea with virtual interaction with camera orientation

Smart Hand Hygiene Compliance System: — ESP32, Arduino, Firebase, Flutter

Built an IoT-based hospital hygiene monitoring system using ESP32, ultrasonic and IR sensors for real-time compliance detection. Integrated Firebase for live cloud logging and developed a Flutter dashboard for compliance analytics. Implemented state-machine based event detection with automated violation tracking. Designed a low-cost scalable healthcare solution (1500 prototype cost).

EDUCATION

2023 - present	B.E at Alva's Institute of Engineering and Technology	(CGPA:8.4)
2023	Class 12th at St.Agnes PU college —Karnataka State Board	(86 percent)
2021	Class 10th at Vidhyashree Shikshana —Kendra Kerala State Board	(100 percent)

SKILLS

Python — C++ — HTML — SQL — KQL

Leadership — Team Work — Time Management — Communication — Discipline — Problem Solving
